

MIRA: 'TOP TECHNOLOGY FOR PATIENTS' STATE OF THE ART MEETING ON RESEARCH, EDUCATION AND ENTREPRENEURSHIP

Wednesday 31 March - Thursday 1 April 2010

MIRA, the Institute for Biomedical Technology and Technical Medicine, will host an innovative event on 31 March and 1 April for leading scientists, clinical professionals, entrepreneurs, students and journalists. Meet us, to share knowledge and ideas.

The programme includes:

- Introduction of MIRA's future plans and ambitions on research, entrepreneurship and education by prof. dr. Clemens van Blitterswijk and dr. ir. Martijn Kuit
- Several presentations of MIRA's state of the art research including prof. dr. Vinod Subramaniam, prof. dr. Michel van Putten, prof. dr. Dirk Grijpma, dr. Pamela Habibovic and prof. dr. Ivo Broeders
- Fascinating lectures by key note speakers: prof. dr. Hans Clevers (Hubrecht Institute, Utrecht), prof. dr. Jeffrey Hubbell (EPFL, Switzerland) and prof. dr. Thomas Jovin (Max Planck Institute for Biophysical Chemistry, Germany)
- Inspiring speeches by successful entrepreneurs: Per Slycke, MSc (Xsens), prof. dr. Joost de Bruijn (Xpand Biotechnology) and Peter Lems, MSc (Mobihealth)
- Workshop in cooperation with prof. dr. Maarten IJzerman, Science Park and Venture Lab on being successful in healthcare business
- Sensational finals of the 'Science factor', the award for the most excellent and promising research proposal
- The finals of 'UTo Business', the award for the most creative and innovative business idea
- The improvisation comedy of Europe's famous theater group Boom Chicago will add energy and laughs to this event.
