The workshop, On-Line Algorithms 2004 (OLA 2004), will take place at Rungstedegaard in Rungsted Kyst, Denmark, July 5-7, 2004. OLA 2004 will be held in the spirit of the series of three workshops on on-line algorithms, which have been held at Dagstuhl in 1996, 1999, and 2002.

OLA 2004, will be a satellite workshop of SWAT 2004, which will be held at Louisiana, a modern art museum in Humlebæk, a short distance from Rungsted Kyst. Rungstedegaard is also the recommended place for lodging for SWAT participants. SWAT will be held July 8-10, 2004, and ICALP will be in Turku, Finland, July 12-16, 2004.

About the Location

Rungstedgaard is a conference center in Rungsted Kyst, on the coast next to the Karen Blixen Museum, a bit north of Copenhagen in Denmark. There is a direct train connection from Copenhagen's airport, every 20 minutes, taking 45 minutes. Please have a look at pictures of the center (click on the film camera icon). The rooms are small and without TVs, but equipped with PCs. In addition to the lecture rooms, there are other comfortable places for meeting, including a sort of bar for evenings, and there is a view over water, with Sweden in the distance.

The address is:

Rungsted Strandvej 107
2960 Rungsted Kyst

The first line is the street name and the number on that street, and the second line is the zip code and the town.

The phone number is +45 4586 4422.
