The authors regret that the work factor $\chi$ was not printed in Eq. (32). The correct version reads

$$
\beta_\ast = \frac{4}{3\pi} C_{D,2} D^2 H_0 \int_{z_v^\ast}^{1/v} z \cosh (L_k z_v) dz_v \frac{\cosh (3/2 D_k z_v) d z_v}{(\sinh 2 D_k + 2 D_k \sinh D_k)}.
$$

The authors would like to apologise for any inconvenience caused.
