Patberg WR, Rasker JJ. Beneficial effect of being outdoors in rheumatoid arthritis [letter]. *J Rheumatol* 2002;29:202-4. Labels identifying time periods were omitted from Figure 1, and are printed correctly here. We regret the error.

Lee YH, Kim YR, Ji JD, Sohn J, Song GG. p53 codon 72 polymorphism and rheumatoid arthritis. *J Rheumatol* 2001;11:2392-4. Acknowledgment of support for this article by a grant from the Korea Ministry of Health and Welfare was omitted. We regret the error.

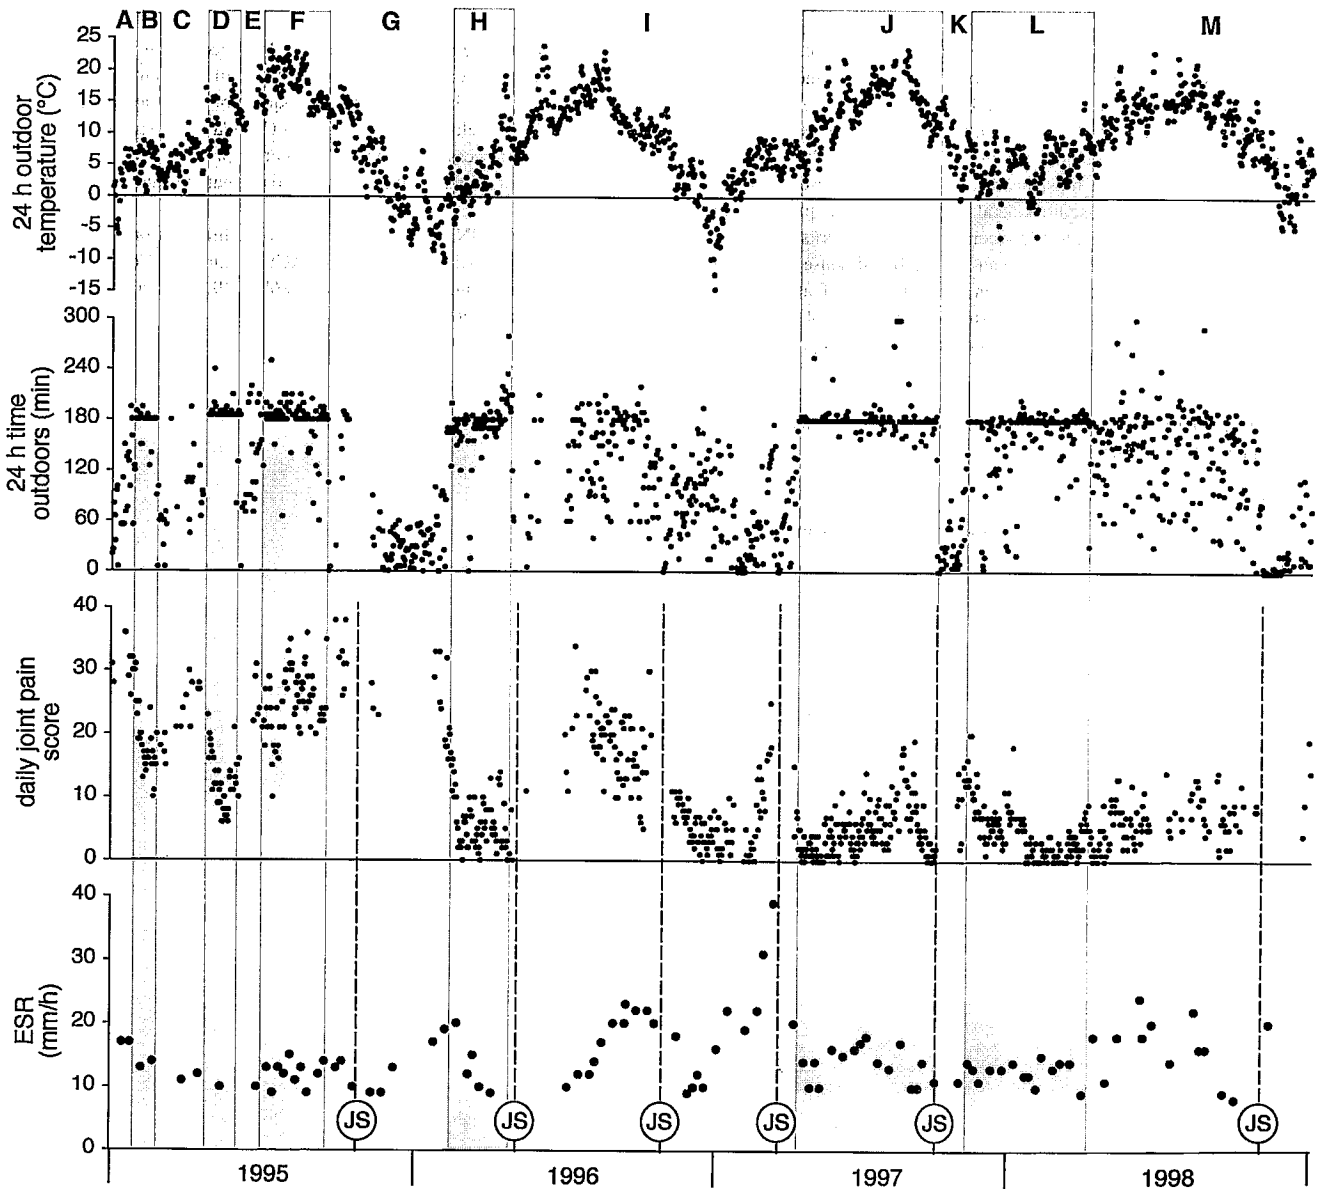

Figure 1. Plot of 24 hour mean outdoor temperature, time outdoors per 24 hours, daily joint pain score, and ESR. Periods during which the daily time outdoors was about 3 hours are shaded. Broken lines (JS) indicate days on which joint surgery was carried out.
