

Russell Weili Chan  
Researcher  
Digital Society Institute

## Employment

### Researcher

Digital Society Institute  
University of Twente  
1 May 2020 → present

## Research outputs

### **Feasibility and Challenges of Performing Magnetoencephalography Experiments in Children With Arthrogryposis Multiplex Congenita**

Golosheykin, S. A., Blagoveschenskiy, E. D., Agranovich, O. E., Nazarova, M. A., Nikulin, V. V., Moiseenko, O. E., Chan, R. W. & Shestakova, A. N., 4 Oct 2021, In: *Frontiers in Pediatrics*. 9, 626734.

### **Focused-attention meditation increases cognitive control during motor sequence performance: Evidence from the N2 cortical evoked potential**

Chan, R. W., Alday, P. M., Zou-Williams, L., Lushington, K., Schlesewsky, M., Bornkessel-Schlesewsky, I. & Immink, M. A., 20 Apr 2020, In: *Behavioural Brain Research*. 384, 112536.

### **Humor comprehension in healthy people and patients with mental disorders: Cognitive and emotional component**

Chan, R. W., 15 Oct 2018, In: *Voprosy Psichologii*.

### **States of focused attention and sequential action: A comparison of single session meditation and computerised attention task influences on top-down control during sequence learning**

Chan, R. W., Lushington, K. & Immink, M. A., 18 Sep 2018, (E-pub ahead of print/First online) In: *Acta psychologica*. 191, p. 87-100 14 p.

### **The influence of focused-attention meditation states on the cognitive control of sequence learning**

Chan, R. W., Immink, M. A. & Lushington, K., 2017, In: *Consciousness and cognition*.

### **Yoga and exercise for symptoms of depression and anxiety in people with poststroke disability: A randomized, controlled pilot trial**

Chan, R. W., Immink, M. A. & Hillier, S., 2012, In: *Alternative therapies in health and medicine*. 18, 3, p. 34-43 10 p.

## Activities

### **Behavioural Brain Research (Journal)**
